The Annual Quality Assurance Report (AQAR) of the IQAC (2010 – 2011)

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

Best Practice - I

1. Title of the Practice

Installation of Digital Generator

2. Goal

The aim of installing Digital Generator is to provide continuous power supply in the College campus. Continuous power is urgently needed in an institution of higher education. Many works can be accomplished without any hindrance in an institution due to uninterrupted power supply.

3. The Context

Tihu College is located in a semi-urban area. Power cut is a problem not only faced by the people of this locality; the entire state suffers a lot due power cut. Tihu College being an institution of double stream, all Science departments along with Education and Geography departments have laboratories. It is a big problem to do the practical classes without power supply. Computer facility is provided to each department. With a view to meeting up the problems associated with the electricity, the Digital Generator was installed in the College to provide continuous and uninterrupted power supply.

4. The Practice

After the installation of the Digital Generator, it is widely used for various purposes. It provides sufficient power supply during in the college campus during the college hour. Uninterrupted power supply is also provided in the practical classrooms. During rainy season power cut is very common. It becomes problematic to do classes due to gloomy weather. The Generator mitigates such problems. The College regularly conducts seminars and workshops with need projectors for power point presentation. The Generator is used fully to organise such activities smoothly as one cannot depend upon electricity.

5. Evidence of Success

The positive results of this practice are:

- i) Practical classes can be done smoothly without any inconvenience.
- ii) The departments do not face any problem to work in computers due to frequent power cut. They need depend upon the electricity.
- iii) In seminars and workshops projector can be freely used due to continuous power.
- iv) Uninterrupted power is provided to the class rooms and examination halls during rainy season and gloomy weather.
- v) Running water facility is not hindered.

6. Problems Encountered and Resources Required

The problems associated with this practice are:

- i) The machine consumes much kerosene or diesel.
- ii) Very few persons can handle the machine.
- iii) It makes sound when it is on.

Best Practice - II

1. Title of the Practice

Construction of an Assam-type building for Physics Laboratory

2. Goal

The aim of constructing a new building for Physics Laboratory is accommodate more students at a time for practical classes. It is constructed to install more modern and sophisticated equipments.

3. The Context

The Science departments of the College have been showing good performance in last few years both in HS and Degree levels. The Department of Physics is not an exception in this regard. As a result, numbers of students are increasing in the Department, especially, after the introduction of Physics as a Major Course. Therefore, it was urgently needed to extend the Physics Laboratory to accommodate more students.

4. The Practice

After completion of the building more sophisticated equipments are installed in the laboratory for students. Students are also facilitated with new equipments. They are given the opportunity to use the laboratory at any time during the college hour. The faculty members devotes more time in it.

5. Evidence of Success

The positive results of this practice are:

- i) Practical classes can be done smoothly without any inconvenience.
- ii) More students can be accommodated at a time.
- iii) Students are highly benefitted by it. They are showing good performance in the examinations, particularly in Major Examinations.
- iv) The faculty members can fully utilise the laboratory.

6. Problems Encountered and Resources Required

The problems associated with this practice are:

- i) The laboratory needs extension and upgradation.
- ii) Insufficient faculty members for practical classes.
